UNIVERSITI MALAYSIA PAHANG

LOG BOOK CONTENTS

DAILY TRAINING LOG

Date: 29/10/2025 Day: Wednesday Training Week: 7

(Please specify training information through descriptive statement, tables, sketches, figures, etc.)

DESCRIPTIONS / REMARKS
Tasks Completed: - Analyzed attendance tracking requirements - Designed attendance database schema - Set up API routes for attendance management - Created attendance controller structure - Planned daily attendance tracking system Challenges: - Understanding attendance workflow - Planning daily attendance tracking system - Designing efficient attendance data model Solutions: - Reviewed existing class and student data structures - Created attendance flow diagrams - Designed optimized database schema

Note: Please include attachment(s) when necessary

DAILY TRAINING LOG

Date: 30/10/2025 Day: Thursday Training Week: 7

(Please specify training information through descriptive statement, tables, sketches, figures, etc.)

DESCRIPTIONS / REMARKS
Tasks Completed: - Developed attendance marking interface - Implemented daily attendance tracking per class - Added attendance status management (hadir, lewat, tidak hadir) (possible remove in the future) - Created attendance history view - Implemented attendance date validation Challenges: - Managing concurrent attendance entries - Ensuring accurate attendance records - Handling attendance status updates Solutions: - Implemented proper data validation before insertion - Added duplicate entry prevention - Created transaction-based attendance updates

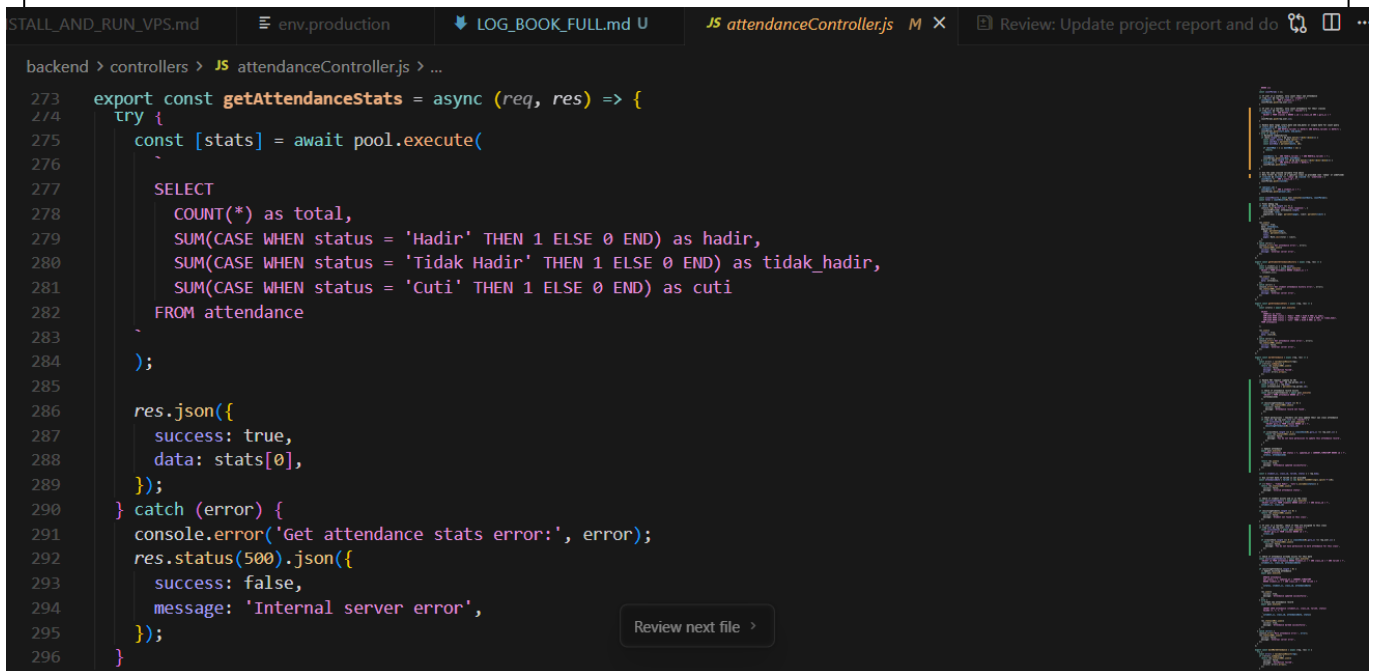

Note: Please include attachment(s) when necessary

DAILY TRAINING LOG

Date: 31/10/2025 Day: Friday Training Week: 7

(Please specify training information through descriptive statement, tables, sketches, figures, etc.)

DESCRIPTIONS / REMARKS

```
273 export const getAttendanceStats = async (req, res) => {
274   try {
275     const [stats] = await pool.execute(
276       `
277       SELECT
278         COUNT(*) as total,
279         SUM(CASE WHEN status = 'Hadir' THEN 1 ELSE 0 END) as hadir,
280         SUM(CASE WHEN status = 'Tidak Hadir' THEN 1 ELSE 0 END) as tidak_hadir,
281         SUM(CASE WHEN status = 'Cuti' THEN 1 ELSE 0 END) as cuti
282       FROM attendance
283       `
284     );
285
286     res.json({
287       success: true,
288       data: stats[0],
289     });
290   } catch (error) {
291     console.error('Get attendance stats error:', error);
292     res.status(500).json({
293       success: false,
294       message: 'Internal server error',
295     });
296   }
}
```

(backend/attendanceController.js)

Tasks Completed:

- Integrated Google Forms for attendance input
- Created Google Form integration controller
- Built attendance statistics and analytics
- Developed attendance reporting features
- Implemented attendance data export functionality

Challenges:

- Integrating Google Forms with attendance system
- Parsing Google Form submission data
- Generating accurate attendance statistics

Solutions:

- Created Google Form webhook handler
- Implemented data mapping and validation
- Developed statistical calculation functions

Note: Please include attachment(s) when necessary

DAILY TRAINING LOG

Date: 3/11/2025 Day: Monday Training Week: 7

(Please specify training information through descriptive statement, tables, sketches, figures, etc.)

DESCRIPTIONS / REMARKS

```
1109 CREATE TABLE fees (  
1110     id INT AUTO_INCREMENT PRIMARY KEY,  
1111     student_ic VARCHAR(20),  
1112     jumlah DECIMAL(10,2),  
1113     status ENUM('Bayar','Belum Bayar','terbayar','tunggak','pending') DEFAULT 'Belum Bayar',  
1114     tarikh DATE,  
1115     tarikh_bayar DATE,  
1116     bulan VARCHAR(20),  
1117     tahun INT,  
1118     cara_bayar VARCHAR(50),  
1119     no_resit VARCHAR(50),  
1120     resit_img VARCHAR(255),

1124 );  
1125  
1126 -- =====
```

(Fees Table Structure)

Tasks Completed:

- Analyzed fee management requirements
- Designed fee collection and tracking system
- Set up API routes for fee management
- Created fee controller structure
- Planned fee payment workflow

Challenges:

- Understanding fee payment workflow
- Planning fee tracking system
- Designing fee data model

Solutions:

- Reviewed existing student and class structures
- Created fee payment flow diagrams
- Designed comprehensive fee tracking schema

Note: Please include attachment(s) when necessary

DAILY TRAINING LOG

Date: 4/11/2025 Day: Tuesday Training Week: 7

(Please specify training information through descriptive statement, tables, sketches, figures, etc.)

DESCRIPTIONS / REMARKS

```
396 // Map frontend status to backend - keep 'terbayar' and 'tunggak' as they are valid in DB
397 const backendStatus = status === 'Bayar' ? 'terbayar' :
398 status === 'Belum Bayar' ? 'tunggak' :
399 (status || 'tunggak');
```

Tasks Completed:

- Implemented fee collection and tracking system
- Added payment status management (terbayar, tunggak)
- Created fee records with amount and date tracking
- Developed fee payment interface
- Implemented fee balance calculations

Challenges:

- Calculating accurate fee balances
- Managing outstanding amounts
- Handling partial payments

Solutions:

- Implemented transaction handling for fee calculations
- Created balance calculation functions
- Added payment history tracking

Note: Please include attachment(s) when necessary

DAILY TRAINING LOG

Date: _____ **Day:** _____ **Training Week:** _____

(Please specify training information through descriptive statement, tables, sketches, figures, etc.)

DESCRIPTIONS / REMARKS	

Note: Please include attachment(s) when necessary

WEEKLY SUMMARY

Weekly Summary for Week 7 (Date: 4 November 2025)

Work experience details	What did I learn?	How does this relate to what I already know?
- Completed attendance tracking module implementation - Integrated Google Forms for attendance input - Started fee management module development - Implemented attendance statistics and reporting	- Attendance tracking system implementation - Google Forms API integration - Fee management and payment tracking - Statistical analysis and reporting - External API integration techniques	- Applied data tracking concepts to attendance system - Extended understanding of API integration - Built upon reporting knowledge with statistics - Enhanced problem-solving through complex workflows

WEEKLY ASSESSMENT

WEEKLY ASSESSMENT BY INDUSTRIAL SUPERVISOR	
<i>Instruction to Supervisor:</i> Please refer to the relevant daily student report for assessments and comments. Marking Scale: 1. Poor 2. Moderate 3. Average 4. Good 5. Excellent	
Supervisor's Signature : Date: <u>4/11/2025</u> Comments:	Supervisor's Name & Official Stamp:
Marks for Week 1 (To be completed on the last day of each training week)
